

NEESPI-related Activity at the IAP RAS

I. I. Mokhov

A.M.Obukhov Institute of Atmospheric Physics RAS, Moscow, Russia (mokhov@ifaran.ru, +7 (495) 9531652)

NEESPI-related activity at the A.M. Obukhov Institute of Atmospheric Physics RAS is discussed. It is including investigation of terrestrial ecosystem dynamics and climate interaction, characteristics of biogeochemical and hydrological cycles, permafrost conditions, atmospheric aerosols and pollution effects from observations and model simulations.
