

Research Centre for the Study of the Rogue Waves

Roman Shamin

Institute of Marine Geology and Geophysics of FEB RAS, Yuzhno-Sakhalinsk, Russian Federation (roman@shamin.ru)

In 2012, in Sakhalin (Russia) was established Research Center for the Study of the Rogue Waves. This center unites many known scientists, who study rogue waves. The center is founded by the following scientific organizations:

- The Institute of Marine Geology and Geophysics of FEB RAS
- The Far Eastern Federal University
- Special Research Bureau for Automation of Marine Researches of FEB RAS
- The Institute of Applied Physics of RAS
- Shirshov Institute of Oceanology of RAS

Heads this center Dr. Roman V. Shamin (Russia).

Topics projects:

- Probability of emergence of rogue waves
- Finding of the sites of the Ocean most dangerous from the point of view of rogue waves
- Assessment of risk of dangerous impact of rogue waves
- and many others...

Our Center is open for new participants from all countries.

Our Centre have web-site: roguewaves.ru
