

Magnetic anomaly grid of Uganda for WDMAM2011

Tapio Ruotoistenmäki (1), Andrew Katumwehe (2), and Juha Korhonen (3)

(1) Geologian tutkimuskeskus, Espoo, Finland (tapio.ruotoistenmaki@gtk.fi), (2) Department of Geological Survey and Mines, Entebbe, Uganda (katandrew@gmail.com), (3) Geologian tutkimuskeskus, Espoo, Finland (juha.korhonen@gtk.fi)

Magnetic anomaly data of Uganda has been continued upwards to a level of 2500 m above the geoid and resampled to 1,5 minutes grid for the WDMAM2011. Techniques, anomaly map and metadata are presented.
