

## **The Total Solar Irradiance record from PREMOS**

Wolfgang Fiinsterle (1), Andre Fehlmann (2), Benjamin Walter (1), Dany Pfiffner (1), and Werner Schmutz (1)  
(1) PMOD/WRC, Davos Dorf, Switzerland (wolfgang.finsterle@pmodwrc.ch), (2) IfA, University of Hawaii, Maui, USA

The PMO6 radiometers on the PREMOS experiment had been measuring TSI with unprecedented accuracy during the PICARD mission. The PREMOS TSI time series covers the period from July 2010 through February 2014. We will present the final data record, corrected for sensor degradation, and review the stability of the PMO6 radiometers during the entire mission.
