

## **Swarm mission status and future plans**

Rune Floberghagen

European Space Agency, Directorate of Earth Observation Programmes, Frascati, Italy (rune.floberghagen@esa.int)

This contribution presents the overall status of the swarm mission. It includes a discussion of (i) instrument and satellite status, (ii) data product quality, and (iii) evolution plans for the mission. The scope of the talk is broad, with a view to illustrating the contribution of Swarm in all areas of its mission objectives, i.e. from the outer core to the magnetosphere.
