

## **How to strengthen the legacy of European Space Projects**

Margit Haberreiter (1), Thierry Dudok de Wit (2), Matthieu Kretzschmar (2), Klairie Tourpali (3), Giulio Del Zanna (4), Veronique Delouille (5), and Ilaria Ermolli (6)

(1) PMOD/WRC, Solar Physics, Davos Dorf, Switzerland (margit.haberreiter@pmodwrc.ch), (2) CNRS, University of Orleans, France, (3) AUTH, Thessaloniki, Greece, (4) University of Cambridge, UK, (5) ROB, Brussels, Belgium, (6) INAF Osservatorio Astronomico di Roma, Italy, (7) University of Bradford, UK, (8) University of Bremen, Germany

European Projects in the Space Domain are crucial for the advancement in the field of solar and heliospheric physics. Certainly, the European projects are important for the important transition from fundamental research to prototypes, or quasi-operational services. To improve the legacy of European Projects we would like to trigger some discussions and share lessons learnt from the perspective of the SOLID project.
