## **Human experience and how we protect the world's oceans**

Hanli Prinsloo

I AM WATER Ocean Conservation, CEO & Founder, South Africa (hanli@iamwaterfoundation.org)

Hanli's experiences underwater as a competitive freediver inspired her to found the I AM WATER Foundation, focussing on ocean conservation through human experience, which combines the two issues that motivate her: social change and conservation.

Hanli will help you find 'your inner seal' to fall in love with the ocean and feel a connection because every 2nd breath we take is thanks to the ocean.

Stories of swimming alongside tiger sharks, to what it takes to communicate with a sperm whale or the grace of giant manta rays adds to the journey the audience is taken on. Hanli's visual material from the underwater realm combined with her vibrant storytelling captures the imagination and inspires audiences to protect what we love.
