

Comparison of Methods for Initialization of the Open Global Glacier Model (OGGM)

Larissa van der Laan, Julia Eis, Kristian Förster, Ben Marzeion

- **Project GLISSADE: G**lobal glacier maSs balance prediction on **SeA**sonal and **DE**cadal scales
- 1st milestone: Initialization of 254 WGMS glaciers

Result:

‘Glacier state’ at any given moment

Outlook:

Force OGGM with CMIP5 multimodel ensemble reforecasts, from ‘glacier state’
