

To increase the amount of time each presenter has to discuss their research during our live session, I will no longer present abstract D2475 | EGU2020-7801.

Should anyone have any specific questions about this work, however, then I am more than happy to discuss in slower time via the 'comment' function, or alternately by email at: ***fc475@cam.ac.uk***

Thanks, and have an enjoyable EGU Online!
