

Join the EGU Union Symposium

May 6, 10:45-12:30 CEST

The role and impact of fire in the Earth system across spatial and temporal scales

Conveners: Elisabeth Dietze, Gitta Lasslop, Alysha Coppola, Sander Veraverbeke & Cathelijne Stoof

May 6th 2020

10:45–10:50

Introduction

10:50–11:05

[Adaptive thinking and the global fire crisis](#)

David Bowman

11:05–11:20

[Landscape fires and public health](#)

Fay Johnston

11:20–11:35

[Fire - climate interactions in a warming world](#)

Guido van der Werf

11:35–11:50

[After the fire: biogeochemical effects of charcoal & ash on fire-affected landscapes](#)

Cristina Santin

11:50–12:05

[The contradictory role of fire from the nature conservation perspective](#)

Orsolya Valkó

12:05–12:30

Discussion
