

EGU online session TS10.3

# Analogue and numerical modelling (of tectonic processes)

Monday 4 May 10:45-12:30

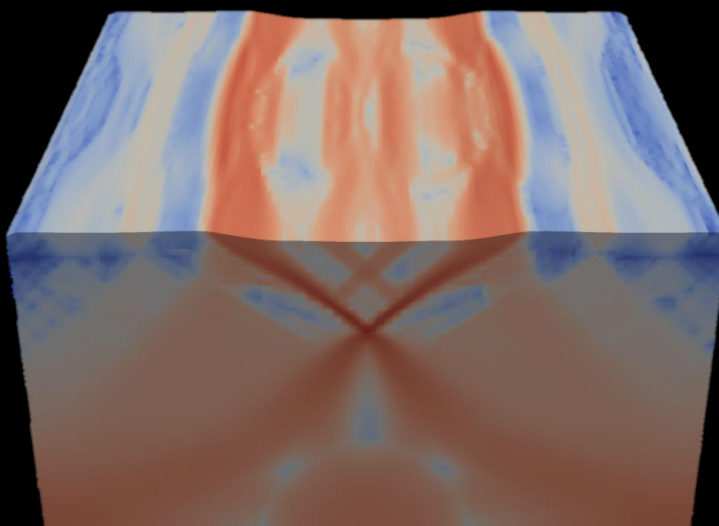

[Click here to go to session \(!\)](#)

© GFZ Potsdam

## Starring:

- Rift tectonics
- X-Ray Scanning
- Mantle flow
- Boundary conditions
- LiDAR scanning
- Fault linkage
- Fold-and-thrust belts
- Sedimentation
- Thermal modelling

© John Naliboff

Disclaimer by George (Sand)box:  
Please remember that “all models  
are wrong, but some are useful” ☺

Brought to you by:

Frank Zwaan, Fabio Corbi, Ágnes Király,  
Valentina Magni, Michael Rudolf
