Dear colleague participants to session G4.2,

6 May 2020

Here, we would like to share some more detailed ideas of how to organize our session G4.2. It is scheduled for a live, text-based chat on:

Thursday, 7 May 2020, 16:15–18:00

You can find the list of displays of session G4.2 at this link:

<https://meetingorganizer.copernicus.org/EGU2020/displays/35335>

Please have a look to the provided material in advance. All displays listed in the schedule of the speakers will be presented with an allocated time of about 5 minutes. For the chat, we propose the following procedure:

- 1) The convenors will announce a certain display.
- 2) If asked, please present a few sentences on your display in the chat (to be prepared in advance). Your input should reflect the main message of your research and stimulate the discussion.
- 3) Discussion: Convenors will also try to stimulate a discussion by asking questions on the display.
The audience is invited to contribute to the discussion, but is advised to wait with new questions until ongoing questions are answered by the authors.
- 4) Convenors will close the discussion and announce the next display.

With best regards,
Jürgen Müller and the G4.2 team
