

EGU 2020

Session HS5.1.5

Assessment, interpretation and modelling of state and trends in water quality

Conveners:

Martina Flörke, Ilona Bärlund, Per-Erik Mellander, Michelle van Vliet

Assessment, interpretation and modelling of state and trends in water quality

Session organisation

- We welcome all presenters and participants to our session
- The focus of the session is on the displays, i.e. the material uploaded by the presenters
- Each display is briefly introduced by its presenter and discussed in the chat
- Participants can formulate their questions in the chat
