

Dear Authors of Session SM5.6,

thank you for submitting your abstract to EGU 2020 and for joining the chat.

We are organizing the chat as follows.

1. The conveners will first quickly introduce the session with one / two sentences.
2. Then, for each accepted work, in the order they appear as Displays (<https://meetingorganizer.copernicus.org/EGU2020/displays/37046>):
 - a. we will take some time to read the abstract / view uploaded material;
 - b. we will invite the presenting author to type one or two sentences to summarise the most important aspects of the work (please prepare in advance, then copy/paste in the chat).
—> Max 5 minutes.
 - c. we will allow questions from the participants.
—> Max 5 minutes.

In total we devote ~ 10 minutes to each work, with some flexibility as needed. We should complete in ~ 90/100 minutes. If needed, there is spare time at the end for more questions.
