**2019:** 1.835 AS-led session abstracts

**2020:** 1.819 AS-led session abstracts (2.3% decrease relative to 2019)

60 AS-led sessions and 22 co-organized sessions (~32 abstracts per session on average).

PICOs were in blocks of 15 presentations.

- Online? Yes! Because it is EGU's responsibility to help minimise the impact of COVID-19 on scientific research and collaboration
- A real experiment (we would like feedback!) that was put in place in 6 weeks.
- Free registration, open to the whole world
- Our considerations:
  - Science submitted to the GA 2020 presented and shared
  - Authors and conveners can participate from anywhere.
  - SGO is accessible to all, regardless of connection bandwidth or with hearing or visual difficulties.
  - All presentation types (oral, poster, PICO) are now treated as equal, and called "display".

## Sharing Geoscience Online allows:

- Authors to upload presentation materials and receive feedback on those from 1 April to 31 May 2020)
- Conveners, authors and attendees to discuss abstracts, presentation materials and submit questions during a dedicated live, text-based chat session (4 – 8 May)
- Everyone to participate in Union Symposia, Great Debates, Short Courses, Networking, Division Meetings, #shareEGUart, Photo Competition, Data Help Desk and more
- EGU to gather experience with online activities and use these in plans for reducing the environmental impact of the General Assembly

## What is on during Sharing Geoscience Online?

- **Scientific sessions:** download presentation materials, discuss through public commenting, and participate in live text-based chats. More information on the [scientific sessions' page](#).
- **Union symposia:** 5 interactive webinars discuss overarching and interdisciplinary topics of EGU-wide interest.
- **Great debates:** join in the debate of 5 current discussion topics in the geosciences.
- **Short courses:** each day one or two short courses are available as webinars.

# EGU Governance Review: *Objectives*

A governance review is an opportunity for the EGU to reflect on its governance arrangements in order to best serve the current and future needs of the organisation, the members, the scientific community and global concerns.

In particular, the governance review will:

- determine whether the governance processes and structures of the EGU are fit for purpose
- make recommendations for any changes to better serve the current and future needs of the EGU and its members

## **Objectives of the EGU Governance Review**

To review the governance processes and structures of the EGU, and make recommendations for any changes to enable the organisation:

- to best deliver its [Mission and Vision](#)
- to best serve the current and future needs of the organisation and its members;
- to ensure EGU structures deliver appropriate scientific and professional diversity and representation amongst EGU committees and boards
