Welcome to the 2020 TS Division Meeting
In the following slides I would like to present the awardees of the Stephan Mueller medal, of the Early Career Science Award, and of the Outstanding Student Poster and PICO awards.

The medal lectures have been reported to the GA 2021.
The 2020 Stephan Mueller Medal is awarded to Mathilde Cannat for her invaluable contributions to the understanding of the tectonic and magmatic evolution of mid-ocean ridges and the formation of oceanic crust.

The 2020 Division Outstanding Early Career Scientist Award is awarded to Christoph von Hagke for his wide-ranging contributions to the kinematics and dynamics of plate boundaries, their interactions with foreland basins, and with magma transport.

The 2019 Outstanding Student Poster and PICO (OSPP) Award is awarded to Alex Hughes: “A new quantitative approach in modelling regional tectonic processes and syn-depositional systems in coupled analogue-numerical models”

The 2019 Outstanding Student Poster and PICO (OSPP) Award is awarded to Hans Jørgen Kjøll: “Deep section of a Neoproterozoic fossil magma rich rifted margin exposed”
The following slides present the past members, and the proposed new ones, for the medal and award committees of the TS Division.

They need approval from the community members present at the Division Meeting.

Therefore, I would kindly ask anyone who is against the new proposal to express this by messages in the chat.
Stephan Mueller Committee: following the usual 4-year «rotation» the 2016 medallist (Renée Heilbronner) will be replaced by the 2020 medallist (Mathilde Cannat)

Early Career Science Award committee: following the usual 4-year «rotation» the 2016 awardee (Åke Fagereng) will be replaced by the 2020 awardee (Christoph von Hagke)

TS Division Officers: following her election as Division President for the 2021 to 2023 term, Paola Vannucchi will replace Magdalena Scheck Wenderoth as a Deputy President from today until the next GA in 2021.

Silvia Brizzi will replace Michael Kettermann as TS media and web officer

A heartfelt thank you to Renée, Åke, Leni and Michael for their work in the past years!

Plans for GA 2020 and beyond

- 6 SC proposed for EGU20
- 2 SC in the #shareEGU20: Mind your Head
  - Science blogging for beginners

Actions to enlarge community involvement
  - A community-wide action:
    - TS Must Read papers
    - 2 fieldwork activities

Leading a change towards a better ECS communication EGU-Wide

Stephan Mueller Medal
The description of the scope of the medal has been slightly modified after discussion at the TS Division Meeting 2019 and a decision by the EGU Council in October 2019.

The previous description:

“This medal was established by the Tectonics and Structural Geology Division in recognition of the scientific achievements of Stephan Mueller. It is awarded to scientists in recognition of their outstanding contributions to tectonics and lithosphere geophysics.”

has been modified to:

“This medal was established by the Tectonics and Structural Geology Division in recognition of the scientific achievements of Stephan Mueller. It is awarded to scientists in recognition of their outstanding contributions to tectonics and structural geology.”

This change makes the description of the scope of the medal coherent with the TS Division name and with the medal descriptions of the other EGU divisions.
Reassessing whether the TS Division Medal should be kept or changed:

Contact authors of the TS Program 2020 were recently asked by email if they consider that a change of the TS Division medal name is appropriate or not. The results of our survey are as follows:

216 responses by email
156 in favour of changing the name
56 against changing the name
4 in favour of different possibilities than the one proposed in our email

Out of the 156 emails wishing a name change the following preferences were expressed:
107 for Marie Tharp, 17 for Janet Watson, 16 for Patience Cowie, 4 for Maria Ogilvie Gordon, and 12 for several other names.

Please note that this is by no means a decision!
It is merely an indication of the opinion of part of the TS community that will be communicated to the EGU Council, where a discussion and decision may take place.

EGU Governance Review: Objectives

A governance review is an opportunity for the EGU to reflect on its governance arrangements in order to best serve the current and future needs of the organisation, the members, the scientific community and global concerns.

In particular, the governance review will:

• determine whether the governance processes and structures of the EGU are fit for purpose
• make recommendations for any changes to better serve the current and future needs of the EGU and its members

Objectives of the EGU Governance Review

To review the governance processes and structures of the EGU, and make recommendations for any changes to enable the organisation:

• to best deliver its Mission and Vision
• to best serve the current and future needs of the organisation and its members;
• to ensure EGU structures deliver appropriate scientific and professional diversity and representation amongst EGU committees and boards

Terms of Reference: The full EGU Governance Review Terms of Reference is available to download here
EGU Governance Review Scope: Timescales & Contact

Timescales

- The Governance panel will convene in late May 2020, and conduct their review over the following 9-12 months.
- The Governance Review will produce an interim report to the EGU Council in October 2020, and a final report with recommendations in January 2021.
- The Governance Review will report to EGU members at the 2021 EGU General Assembly. If any changes to EGU governance require EGU Members to vote, this will take place at the EGU General Assembly.
- Implementation of any agreed governance changes will take place following the 2021 EGU general assembly.
EGU Governance Review Scope: *EGU Member Input*

EGU members may input their views to the Governance Review via their divisional representatives on EGU Council.

EGU members may also contact the Governance Review Panel directly via email at:

If you would like to actively participate in building the TS program of the next GA...
How do we build the program?

- ‘Skeleton’-program: June
- Open call-for-sessions: June to September
- First session program (October)
- Call-for-abstracts
- Session merges… (January)
- Final session program (February)

Bottom-up – your input is extremely important!
How do we build the program?

Please consider that it is VERY (!!) easy to propose a session…but it implies possible later session merges…

Check what has already been proposed before proposing new sessions.

And…the GA is 5 days long from 08.30 on Monday to 19.00 on Friday. Sessions on Monday morning or Friday afternoon are not punishments, just part of the official program!
Suggestions for future assemblies
