

Welcome to the first online EGU ECS networking event!

- My name is **Fernando Iglesias-Suarez**, ECS Representative of the Atmospheric Science (AS) Division
- **Introduction ECS** (more information on the attached info-sheet)
- **What are we going to do tonight?**
 - Get to know new people in two 10-15 minute break-out sessions
 - Discuss what is on our minds
 - Have fun!

Contact : ecs-as@egu.eu; figlesua@gmail.com

More information about ECS: <https://www.egu.eu/ecs/>

First: choose a moderator (1st minute)

If no-one steps up, the person who's first name starts with a J (or the person who's first name starts with the next letter after J in the alphabet) will moderate this session.

Second: VERY brief introduction (20 sec. per person)

- What's your name?
- Where are you based?
- What is your position
- Why are you here?

Third: Let's talk! Conversation starters

- How has #shareEGU20 been so far?
- Who would you like to meet in your field?
- Did you get a new hobby last month?
- What is currently the biggest scientific question in your field?

Tips to make these 15 minutes work:

- Keep an eye on the time
- Leave room for everyone to speak
- Use the chat-function for commenting
- **Exchange contact details if you want to stay in touch!**
