On the North Atlantic Circulation

Monika Rhein

IUP-MARUM, Bremen University, IUP-MARUM, Oceanography, Bremen, Germany (mrhein@uni-bremen.de)

Based on new observations and on improved ocean and climate modeling, the last decade was marked by a seminal progress in our understanding of the North Atlantic circulation. The presentation will summarize recent insights and discuss future challenges. Based on new observations and on improved ocean and climate modeling, the last decade was marked by a seminal progress in our understanding of the North Atlantic circulation.
