

## Interpretation of data of the SHMU visitors

M. Jarosova

Slovak Hydrometeorological Institute, Forecasts&warnings, Bratislava, Slovakia (miriam.jarosova@shmu.sk)

Many people have been interested in meteorology and hydrology. Public has an opportunity to visit the SHMU and we try to obtain information how people comprehend the weather forecast and warning for dangerous weather phenomena. Graph illustrates how the people are able to interpret information about meteorology, hydrology and dangerous weather phenomena. This feedback is very important for us because it help us to improve our work.
