

Seasonal to decadal climate services at the Met Office

A. Brookshaw

Met Office, United Kingdom (anca.brookshaw@metoffice.gov.uk)

For many years the Met Office, the UK's National Meteorological Service, has been providing climate services to a large range of users - from government organisations, both national and international, to commercial customers.

This presentation will highlight long-range forecasting products currently available for seasonal and longer timescales, as well as planned developments and research aimed at diversifying and improving our user-relevant applications.
