(1) Europlanet RI (2) University College London

Abstract

Europlanet RI has as one of its deliverables "dissemination" to policy makers. To this end, it started a project in May 2010 to contact Members of the European Parliament to discuss Europlanet goals.

Between June and December 2010, Europlanet key members held meetings with 16 MEPs or their assistants.

Europlanet organised a Dinner Debate at the Brussels Parliament on February 2nd, hosted by MEPs Britta Thomsen and Teresa Riera Madurell. Seven MEPs attended, along with representatives from the European Commission, Industry, the European Space Policy Institute and members of the Europlanet Research Infrastructure.
