

Reproducibility and Reuse of Scientific Code

Pierre Montagano (1) and Michael Forster (2)
(1) Code Ocean, orcid.org/0000-0001-6304-7349, (2) IEEE

IEEE in partnership with Code Ocean have launched a reproducibility initiative aimed at changing the way users interact with articles that contain software and code on IEEE Xplore. The ongoing discourse about the lack of reproducibility in science presented IEEE with an opportunity to move beyond the pdf and provide access to the data and code behind article figures and other result artifacts, so others can rerun the analyses and reproduce the results.
